

ASR2001

*The 2nd International Symposium
on Advanced Science Research*

Advances in Heavy Element Research

November 13 – 15 , 2001 JAERI, Tokai, Japan

Topics

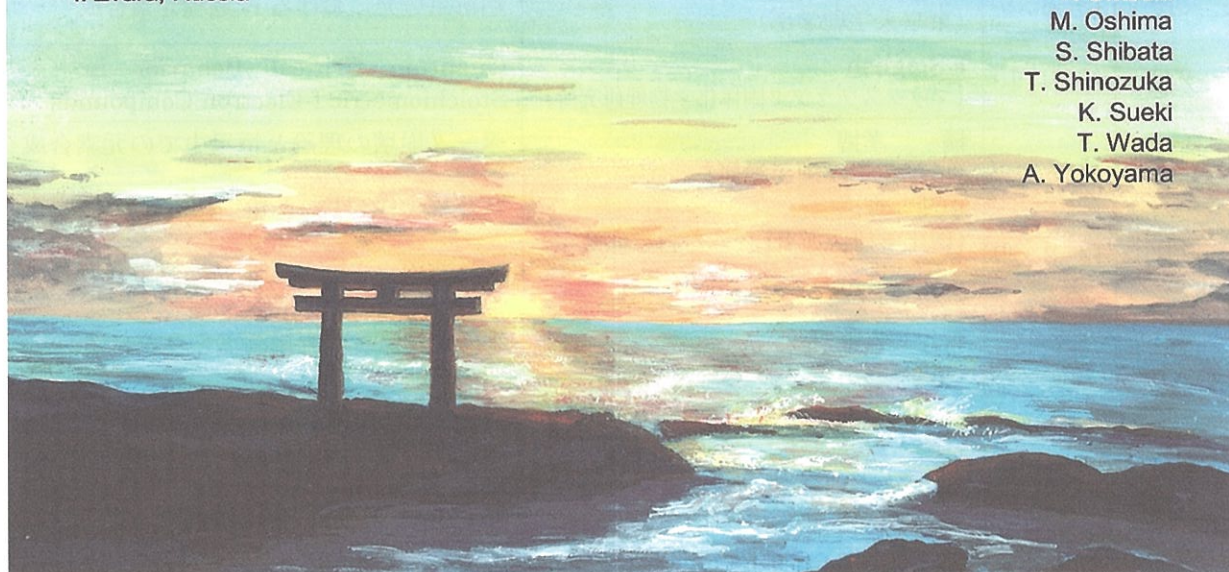

Synthesis of Superheavy Elements
Nuclear Fusion and Fission of Heavy Nuclei
Nuclear Structure and Decay Properties of Heavy Nuclei
Chemistry of Heavy Actinide and Transactinide Elements
Development of New Techniques for Heavy Element Research

International Advisory Committee

Y. Abe, Japan	I. Ahmad, USA
J. Äystö, Switzerland	H. Gaggeler, Switzerland
D. C. Hoffman, USA	A. Iwamoto, Japan
J. V. Kratz, Germany	W. Loveland, USA
