

626th ASRC Seminar

Date: 15:00 ~ 16:00 Thursday, February 25

Location: Meeting room 302, ASRC Building

Speaker: Dr. Lieh-Jeng Chang
(National Cheng Kung University)

Title: Spin ice & Quantum spin ice

Abstract: I will review our works on spin ice and quantum spin ice, and give our outlooks about the further studies on these two topics. In the talk, it includes the magnetricity picture in the spin ice, and the Higgs mode in the quantum spin ice. Sample-dependent issue in $\text{Yb}_2\text{Ti}_2\text{O}_7$ will be addressed and discussed also.
