

710th ASRC Seminar

Date: 10:30 ~ Thu., March 29

Location: 302 Meeting Room, ASRC Bldg.

Speaker: Professor Su Houn Lee
(Yonsei University)

Title: Multiquark configurations

Abstract:

The following will be discussed:

- 1) A general discussion on the color spin flavor component of a compact multiquark configuration,
- 2) H and d^* dibaryon, P_c pentaquark, T_{cc} tetraquark
- 3) Why nuclear force should be repulsive at short distance,
- 4) Observations from Heavy ion collisions.
